

**New Product Release**

# u.sense HD

**Resolution: > 27lp/mm**

## Simplicity at every step

From installation to diagnosis, U-Sense HD designed to integrate effortlessly into your daily workflow.

With its USB 2.0 direct connection, U-Sense HD is instantly ready to use- just plug it in and start capturing high-definition images within seconds.

Whether you're upgrading your equipment or setting up a new operatory installation is fast and effortless

Thanks to TWAIN compatibility, U-SENSE HD integrates smoothly with most dental imaging software on the market.

## The Right Fit, Every Time

U-SENSE HD was designed to adapt — to every patient, every clinical situation, and every workflow.

Its ergonomic shape, lightweight design, and rounded edges ensure easy positioning and greater patient comfort, even in sensitive areas.

With three available sizes — including a new 1.5 format — U-Sense offers the right fit for both pediatric and adult indications, making daily use simpler and more intuitive.

**GET** 1 x Cube Led Handpiece Ref #F12816 **FREE**

## Expasyl Exact paste

Expasyl™ Exact paste provides excellent benefits with little risks. Its viscosity has been carefully calculated to open the sulcus effectively without damaging the epithelial attachment. Your procedure is both safe and effective.

- Expasyl™ facilitates access to the preparation limits and emergence profile for perfect impressions
- The compound opens the sulcus and dries it (blood, saliva and fluids) completely
- Cost-effective = no waste of material
- Works with composite applicator gun

## Servotome II A New Impulse In Electrosurgery

**2 YEARS WARRANTY**

### Experience the benefits of eletrosurgery

High frequency electro-surge or orthodontics, periodontics and other oral surgery with a single footswitch, a box with 10 electrodes & a conductive bracelet.

#### Electrosection

Vaporizing the tissue with the active electrode makes it possible to cut quickly without damaging the edges of the incision.

#### Fulguration

Makes it possible to surface coagulate gingival tissue while protecting the underlying layer.

#### Coagulation

Concentrating energy at the surface of a massive electrode makes it possible to diffuse the heat to the surrounding tissue and produce instantaneous hemostasis.

## Eurosonic 4D The new dimension of ultrasonic washing

Eurosonic 4D is the most advanced 3.8 L ultrasonic tank in the range. Equipped with an LED-backlit display controller, it is intuitive and user-friendly thanks to the lights indicating the different cycles, times and temperatures.
