

# CURAPROX

SWISS PREMIUM  
ORAL CARE

RETAIL PRICELIST  
AUSTRALIA

# JOYFUL ORAL CARE FOR EVERY STAGE OF LIFE.

We accompany people. From day one, for a lifetime. We provide innovative oral care products and ideal brushing routines for babies, toddlers, and the young cool ones, during pregnancy for profound daily oral care, as well as in old age or during health issues. Our motto: good oral hygiene should not be a privilege; it should be achievable for everyone.

MANUAL TOOTHBRUSHES

# LET'S OVERWHELM WITH PURE GENTLENESS.

Gentleness and effectiveness, this is why dental professionals have been recommending our toothbrushes, and whoever comes to brush with one of our wonderful CS products will not go back to any other toothbrush.

The CS brushes are gentle on teeth and gums – and effective against plaque.

If there was a secret 'oral care lovers' language, its word for softness would be Curen®. Instead of nylon bristles, Curaprox toothbrushes have patented Curen® filaments.

HYDROSONIC TOOTHBRUSHES

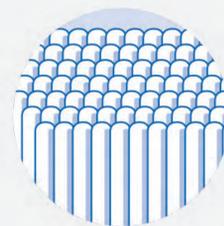

# SIMPLE, EFFECTIVE CLEANING.

The Hydrosonic pro. Professional teeth cleaning with sonic technology and innovative Swiss brush heads – for exceptional oral care.

Three brush heads developed by oral health professionals: Power, sensitive and single. Ultrafine Curen® filaments. The Curacurve. bend. Imagine enjoying that professionally cleaned feeling every time you brush – even with braces, implants, sensitive gums and those hard-to-reach spots.

Long on the outside, short on the inside: this filament arrangement makes sure different surfaces of each tooth are reached for optimal mechanical and hydrodynamic cleaning.

Curen® filaments instead of the conventional nylon bristles: always gentle and effective.

Accidentally striking a tooth with the back of the brush head? No more unpleasant feelings: the back is rubberised, what a convenience.

The droplet shaped brush head makes it possible to embrace each tooth individually – and clean it highly effectively.

TOOTHPASTES

# MADE WITH LOVE TO CLEAN AND PROTECT.

Be You - Fresh, zesty flavours to suit every mood. One toothpaste, six surprisingly vibrant options—each crafted with care, joy and natural ingredients. Choose the flavour that feels right for you, every day.

Gentle, mild, and effective. Free from harsh ingredients, Enzycal toothpaste delivers a fresh taste while helping to protect against tooth decay. Formulated with enzymes that support the natural protective power of your saliva, it's ideal for everyday oral care.

As black as night, yet brilliantly effective. This innovative whitening toothpaste uses activated carbon to gently lift surface stains, leaving your mouth feeling clean, fresh, and confident—without compromising enamel.

CPS INTERDENTAL BRUSHES

**POWERFUL  
PREVENTION,  
VERY GENTLE.**

Effective cleaning of the interdental spaces is fundamental to maintaining optimal oral health. CPS Prime interdental brushes, designed for primary prophylaxis, help prevent interproximal caries, gingivitis, and periodontitis. Even the smallest CPS Prime brush is only twice the diameter of dental floss, allowing precise and gentle cleaning.

For people with periodontal conditions, CPS Perio brushes are recommended for secondary and tertiary prophylaxis and are specifically designed for larger interdental spaces. CPS Implant brushes feature long, fine, rounded filaments, making them particularly gentle and suitable for cleaning around implants, crowns, bridges, and during post-surgical care.

# EASY TO HANDLE

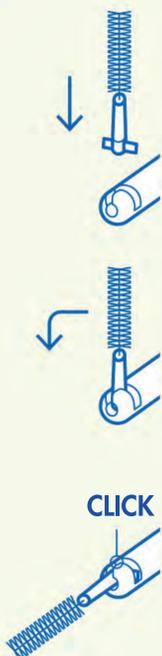

All Curaprox interdental brushes fit all Curaprox holders and feature a simple click system for quick, easy replacement. This design offers convenience while reducing waste.

Made with durable Cural® wire and soft filaments, the brushes last well, but should be replaced after 10–20 days. The holder can be reused, supporting sustainability and long-term use.

WE BUILD A HEALTHIER  
AND HAPPIER SOCIETY BY  
REVOLUTIONISING ORAL  
SELF-CARE.

CURAPROX ultra soft  
+ 5460  
CURAPROX SWISS MADE

**Curaprox comes from Latin: “cura” means care or cure, and “prox” means close.** Together, the name reflects our belief that care begins up close—through prevention, education, and daily habits that protect oral and overall health.

This meaning aligns with the future of dentistry, which is shifting away from invasive treatments and toward empowering patients with knowledge about oral hygiene, the oral microbiome, diet, and lifestyle choices. Prevention is at the heart of a healthier society, and it is the foundation of the Curaprox philosophy.
